Claim Objections

1. Claim 2 is objected to because of the following informalities: it has a period "." In line 19 before "wherein". You can have a period only at the end of a claim. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 77 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 77 recites the limitation "A method as recited in claim 71" in line 1. There is insufficient antecedent basis for this limitation in the claim because claim 71 was canceled.

Allowable Subject Matter

4. Claims 2-8,11-15,17-23,25,27-29,31,33,34,36-49,51-56,58-70,72-76,78-82,84-90, and 92-100 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter for: With regard to each of independent claims 2, 12, 17, 27, 38, 58, 75, 89 and 97 the prior art of record does not teach or suggest to summarize; having two separate computers each having a display connected over a network whereby the users of this

Art Unit: 2675

system produce and exchange haptic feedback signals which have a direct relation to what is on the display and felt by user in combination with all the other limitations in the claim. The closest art of record "MagicMouse: Tactile and Kinesthetic Feedback in the Human-Computer Interface using an Electromagnetically Actuated Input/Output Device" (A.J. Kelley and S.E Salcudean 1993) lack the features related to using a network and exchanging haptical feedback signals.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
